

Wildland Consultants Ltd - Environmental Objectives and Targets for 2020-21

Reviewed 12/10/2020

Objective	Target	Status (at last review date)	Target Date	Date Achieved
Maintain Toitū enviromark® diamond certification (achieved 2018) in alignment with the international standard ISO 14001.	Maintain Toitū enviromark diamond certification processes company-wide. Audited by Toitū on an annual basis.	In progress	19/10/2020	
Maintain carbon neutrality (achieved 2017):	Calculate Wildlands Carbon footprint: Use CATALYST, an Excel based carbon calculator to capture this year's data. Audited by ekos on an annual basis.	In progress	31/03/2021	
• reduce overall carbon emissions (tCO ₂ /FTE).	Reduce level of overall carbon emissions to 51% of baseline year (2.27 tCO ₂ /FTE).	In progress	31/03/2021	
• reduce company vehicle carbon emissions (tCO ₂ /FTE).	Reduce level of company vehicle carbon emissions to 60% of baseline year (1.49 tCO ₂ /FTE).	In progress	31/03/2021	
• maintain or reduce electricity emissions (tCO ₂ /FTE).	Maintain electricity emissions to 39% of baseline year (0.18 tCO ₂ /FTE).	In progress	31/03/2021	
• reduce waste-to-landfill (tCO ₂ /FTE).	Reduce level of waste-to-landfill to 10% of baseline year (0.18 tCO ₂ /FTE).	In progress	31/03/2021	
Research methods for reducing waste-to-landfill such as:				
• further pressure on packaging from suppliers	Contact 5 key suppliers each year to encourage sustainable packaging.	Not started	30/06/2021	
Change energy supplier to one who has a higher percentage of renewable energy for:				
• all locations where energy is not included in lease.	Change to suppliers with 100% renewable energy sources.	In progress	31/01/2021	
• locations where energy is included in lease.	Investigate whether landlords would be prepared to switch to suppliers with 100% renewable energy sources.	Not started	31/03/2021	
Upgrade lighting in all offices to be energy efficient LEDs where practicable.	100% of all office lighting to be energy efficient LEDs where practicable.	In progress	31/05/2021	
Reduce agrichemicals usage in Auckland Council Eco Contract 'High Value' sites over time.	Tracking usage in individual parks over time to show an overall reduction as reserves move through restoration phases.	In progress	30/06/2021	
Create a process for assessing the procurement of new or replacement vehicles to more fuel efficient vehicles.	Create and implement a Procurement Policy identifying the steps of the selection process for the purchase of new vehicles.	In progress	20/12/2020	
Encourage employees to participate in community-based ecological restoration projects.	Investigate how many employees participate in community-based ecological restoration projects using an online survey. Use this as a base year to measure for following years.	Not started	28/02/2021	
Effectively zero hazardous substances or toxins accidentally discharged to the environment.	Track environmental spill incidents and set target of less than 100ml or 100g of agrichemical in a single event.	Not started	31/03/2021	
Improve employee awareness on agrichemical usage.	All field staff to receive minimum Growsafe Standard within a year of employment.	Not started	28/02/2021
